PROFILE

From a young age, my passion for design was evident in my sketchbooks. At 15, I design my first personal website for a gaming blog, demonstrating my early technical skills. At 25, I transitioned into a freelance career, where I quickly established myself in branding and web design.

After 12 years and a dozen branding and web projects, I still work with the same passion, and the same urge to upgrade my skills.

EXPERIENCE

Working as a Freelance

Working period: 2023-2024

My role was: Web designer

Work I have done was mostly web designs, I had a client who need it a complex counter app where I have worked with React, at this period of time I spend lot of time learning NextJS as well while trying to build my App where I can sell my design assets.

Working at Pinstel

Working period: 2022-2023

My role was: Branding and Print Designer.

Work I have done was designing brandings, such as logo design icons, social media templates, packaging, brand guidelines, brand books, and Amazon storefronts.

Working as a Freelance

Working period: 2019-2021

My role was: Design and marketing.

Work I have done was mostly social media marketing, graphic design and some web designs as well.
At this period of time I gain a lot of followers and on my Instagram page "Niko Dola" but since I have done all the work by my self this job become overwhelming very fast

Working at BioRugged

Working Period: 2015-2020

My role was: UI/UX - Pitch deck designer - Print designer

Work I have done was designing company website, mobile app prototypes, brochures, device packaging, creating quick 3D images and creating, product posters from the devices.

Working at Lucky Mobile

Working Period: 2012-2015

My role was: UI/UX designer

Work I have done was designing UI/UX dating apps, in this period of time i created two apps, Voicy and Shoutout.
I did a lot of layout and, emojis, icons and testing for this app.

Working as Freelancer

Working Period: 2010-2012

My role was: Logo and Software designer

The work I have done was mostly for contest and in this period of time I won over 200 graphic and web design contests using platforms as 99designs and DesignCrowd
